NAS SOLUTIONS

Powered by **Synology**

Smarter Storage, On Your Terms

Take control of your data with Digibuggy NAS
- *secure, scalable, and cost-effective storage*
for businesses and creators across India.

Are Your Cloud Costs Up in the Clouds?

Modern problems require modern storage.

But here's the reality...

- *Cloud subscriptions keep rising - but so does your data.*
- *Internet issues = no access to your files.*
- *External drives fail, get lost, or just can't keep up.*
- *Cloud providers = limited control over your data.*
- *Switching providers? Painful and pricey.*

What is NAS?

Your Private Cloud, On-Site

Network Attached Storage (NAS) gives you *fast, secure, and private access to your data*
- without relying on third-party cloud providers.

- *Your own storage - accessible from anywhere*
- *Zero monthly fees*
- *Central hub for all your files*
- *Total control over privacy*
- *Perfect for work-from-home, creative teams, and growing businesses*

NAS vs. Cloud:

The Honest Comparison

Feature	Digibuggy NAS	Cloud Storage
Data Control	100% yours	Provider controls access
Cost	One-time, no recurring	Monthly subscriptions
Speed	Super-fast, local access	Internet-dependent
Privacy	Fully customizable	Subject to provider terms
Scalability	Easy to upgrade anytime	Expensive tiers
Remote Access	Secure remote access	Internet required
